

Kirszenbaum — Technical Rider

What we bring with us

Kuba

- Lead singer
- Electro-acoustic guitar + electric guitar + pedalboard + looper (through two combo amps at once: a Kustom Sienna 65 Pro and a Laney VC15)
- Roland SPD::ONE KICK (a digital percussion pad with a Jack mono output)

Kacper

- Backing singer
- Electro-acoustic violin + pedalboard + looper (through a Roland Jazz Chorus JC-40 combo amp)

Laptop

- Macbook Air for displaying collage films during the show (Thunderbolt, HDMI or VGA)

What we need from you

On stage

- 2x vocal microphone + 2x microphone stand and cables
- 3x amp microphone + 3x microphone stand and cables
- 1x DI-box for the Roland SPD::ONE KICK + cables
- 2x monitor speaker (with separate mixes) + cables
- Power sockets (3 for the amps + 4 for the pedalboards)
- 2x amp stand (or anything to put the amps on)

Front of house

- A PA system with a separate subwoofer
- A live sound engineer present throughout the show
- A mixer with built-in reverb and delay capabilities (for the vocals)

If we are to show collage films during the show, we'll also need:

- 1x digital projector (HDMI or VGA), projecting straight onto the stage (if possible)
- 1x additional power socket for the laptop

Remarks

- We always mic the amps (we don't use line outputs)
